Municipality of Marmora and Lake

2023 Draft Budget

Background

On an annual basis, the Municipality prepares a budget for Council to authorize expenditures for the year. The municipal budget is a key planning document that provides a foundation to deliver municipal services. The budget is a plan to implement municipal goals and priorities and provides a method to monitor and control income and expenses throughout the year.

The operating budget is organized by department and/or service area and relates to day-to-day operations including programs and services such as parks, arena, road maintenance, policing, fire and emergency services, planning, administration, and others.

Transfers to reserves may be included by department and/or service as part of a plan for longer term goals.

The capital budget outlines the Municipality's capital expenditure plan and related funding for these projects that will provide or support services to residents over many years.

Operating and capital expenditures are funded by revenue received from user fees, service charges, grants, reserves, financing, and property taxation. Like most municipalities, property tax is the main source of revenue at Marmora and Lake. Specifically, revenue from property tax represented approximately 55% of total municipal budgeted revenue (dollars collected to pay for delivery of services) in 2022.

As a lower-tier municipality, Marmora and Lake is responsible to collect taxes on behalf of the County of Hastings and the Province of Ontario (education taxes). Budget and tax rate information related to the County of Hastings and the Province of Ontario are not included in the municipal budget (has no impact on the municipal tax rate itself) but impacts our resident's overall taxation and is therefore included in the total tax bill impact calculation.

Annual Budget Schedule

Objective	Timeline
Treasurer met with council members for input.	November 2022
Budget Direction Report special meeting.	December 20, 2022
Draft detailed budget document circulated to council members for review.	January 11, 2023
Council member comments on budget documents due.	January 25, 2023
Draft Budget to the public	February 7, 2023
Public Meeting – 2023 Budget	March 2023
Council review and adoption of budget.	March 2023
Final tax levy, user fee bylaw.	April 2023

By providing the annual budget to council prior to the beginning of the next calendar year, deliberation and approval may occur earlier. This facilitates timelier procurement of goods and services and assists with achieving departmental goals and completion of planned projects outlined in the budget.

Factors Affecting Budget

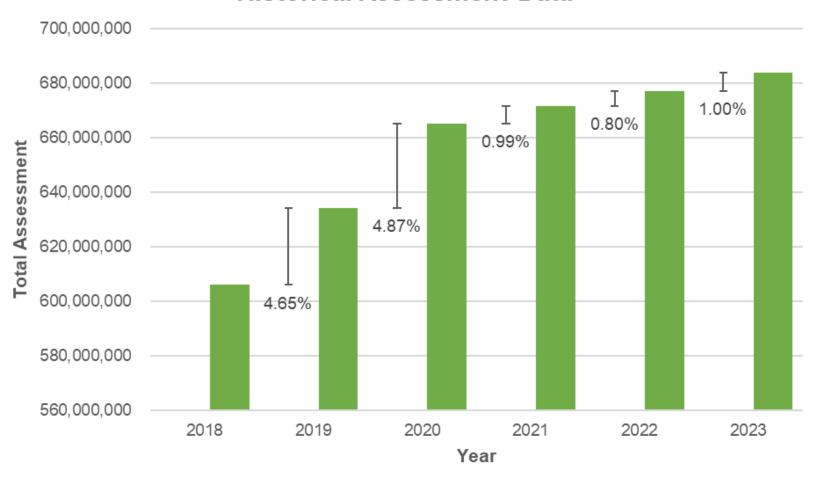

There are several factors that can impact the operating budget significantly. The following table outlines the most common items, however, is not considered an exhaustive list:

Category	Description
Employee Compensation	Relates to existing staff complement and includes applicable pay equity, economic, job rate, and benefit adjustments.
Mandatory Legislation or Contracts	Any new or changes in legislation that require a department to incur additional costs to start a new service, change service levels, or maintain an existing level of service. The 2023 insurance renewal saw an increase of nearly 16% (approximately \$31,500).
Additional Staffing Levels	In instances where new/additional staff are hired (or annualized from prior year), the full impact of wages and benefits are included in the budget.
New/Altered Services	Where new services and/or partial year funding for the services were added during the previous year, the full impact of the service must be annualized in the budget.
Inflationary	Impacts due to rate increases for items such as maintenance supplies/services, insurance, winter maintenance (sand, salt, fuel).
Utilities	Projected changes to utilities (hydro, natural gas, etc.), based on historical trends.
Council, Community Initiatives	Council direction that has budget effects for subsequent years such as lifeguards, CIP, Private Roads Grant, Central Hastings Transit, as well as capital projects financed over several future years (unfinanced capital).
Fees/Charges & Other Revenue Charges	Revenue impact of proposed increases to existing fees/charges, new fees/charges, grant allocations and reserve activity.

Assessment Growth & Distribution

Historical Assessment Data

Assessment Information

The Municipal Property Assessment Corporation (MPAC) is responsible for assessing and classifying properties in Ontario.

Increases in assessed value between January 1, 2012, and January 1, 2016, were phased over the 2017 to 2020 period.

In response to the COVID-19 pandemic, the Ontario government announced that 2020, 2021, 2022, and 2023 assessment updates had been postponed. As a result, property assessments for the 2022 property tax year will continue to be based on the fully phased-in January 1, 2016, values. Therefore, property assessments for the 2023 property tax year will be the same as 2020, 2021, and 2022 tax years, unless there have been changes to the property.

For illustrative purposes, the average property owner would have experienced a rise in their property tax bill during 2020 due to an increase in the tax rate, and an increase in the phased-in assessment, however, for 2021, 2022, and 2023 the average property owner will observe an increase/decrease in

their property tax bill as it relates to a change in the tax rate only, as assessment values for 2021, 2022, and 2023 are based on 2020 values.

Reasons for a Property Assessment Notice:

- change to property ownership, legal description, or school support;
- change to the property's value resulting from a Request for Reconsideration, an Assessment Review Board decision, or ongoing property reviews;
- property value increase/decrease reflecting a change to the property; for example, a new structure, addition, or removal of an old structure; or
- change in the classification or tax liability of the property.

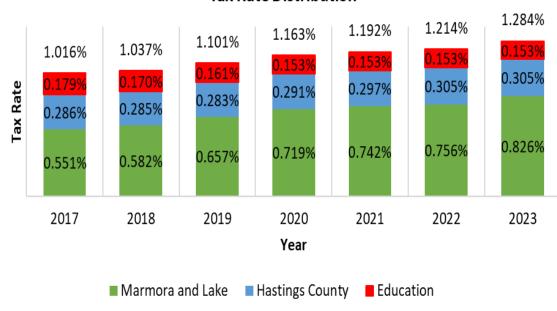

Exampleof Residential Taxes Estimated

This illustration uses 2023 Current Value Assessment (MPAC data).

Taxes will vary property by property.

Please note that the Education tax levy remains stagnant for 2023. The 2023 Hastings County levy is unavailable at this time. For a **\$166,000** assessment, which is the Municipal average per MPAC, the <u>annual Municipal tax levy</u> increase is **\$115.41** or **9.20%.**
